8. - 9. October 2020, Jožef Stefan Institute

More info: <http://ittc.ijs.si>

WIPO IP Enterprise Trophy encourages business, including small and medium-sized enterprises to make imaginative use of the IP system in their business activities, for example to develop successful strategies for the commercialisation of public research (university or public research institute)-based innovation and/or companies that have undertaken successful activities to build public respect for IP.

Eligibility criteria:

- enterprises registered in Slovenia (s.p., d.o.o. and d.d.)
- Candidates eligible for the WIPO IP Enterprise Trophy are those that make outstanding use of the IP system by, for example:
 - Developing successful strategies for the commercialization of university-based innovation in the last 10 years, for example 1. has transferred IP from public university or public research institute based in Slovenia (eligible types of agreements are 1. Research and development agreement, 2. Facility use / service agreement, 3. License agreement, 4. Material transfer agreement, 5. Technical assistance agreement), 2. has employed young PhDs from public research organisations (up to 30 years old) or 3. has launched new products or services to the market (based on public-research based transfer and has valid IPR or business secret protection);
 - Developing public campaigns to promote appreciation of their IP assets;
 - Encouraging creative and inventive activity among staff;
 - Creating corporate social responsibility programs to use the benefits of successful IP-based business for public goals;
 - Executing commercial or marketing strategies based on effective use of the IP system.
